Warriors First!

Monthly Newsletter - June 2023

Greetings, Frontier Warriors! We hope you all had a great Memorial Day Weekend with family and friends. During our recent battlefield circulation with the Mission Command Center of Excellence (MCCoE), we had the pleasure of spending time with the Combined Arms Doctrine Directorate (CADD). CADD performs numerous critical functions for CAC, especially in the areas of integrating all Army doctrine to ensure internal consistency within Army doctrine, and external consistency with joint and multinational doctrine as required. CADD's role in Force Management includes supporting force design through development of organization and operations concepts and design of division and above echelons. A significant amount of CADD's effort continues to go into doctrine development for FY23-24, whether driving focus on Large Scale Combat Operations (LSCO) congruent with Multi-Domain Operations (MDO), "top-down" by way of Army Doctrine Publications (ADPs) and Field Manuals (FMs), or providing junior leaders with doctrinal tools "bottom-up" with Army Techniques Publications (ATPs).

CADD's focus on producing the highest quality doctrine and other instructive products for our Army is integral to their organization. Here's the link to CADD Director, COL (Ret) Rich Creed, personally briefing the new FM 3-0. <https://www.youtube.com/watch?v=QFYjO3XHd3Q> The Special Doctrine team produces a lot of unique doctrine outreach products meant to spark intellectual fires and enhance understanding of Army doctrine.
